CERTIFICATION

- Problem solving through programming in C by NPTEL, India
- Database Management System by NPTEL, India
- Blockchain Essentials by IBM
- Python for Data Science by IBM
- Machine Learning with Python by IBM
- Build your own chat using Watson by IBM
- Business English Certification Preliminary completed with 151 marks and level B2
- **Machine Learning Specialization** from Cousera
- Full-stack web development using **ReactJS Specialization** from Cousera

ACHIEVEMENTS

- Done a poster presentation on Fake Drug Detection using **Machine Learning** and **Blockchain** with IOT network in **Phoenixes on Emerging Current Trends in Engineering and Management** (PECTEAM 2K19) during February 2019
- Secured a department rank during the year 2017 in Sem 1
- **Copyright ©** on **Fake Drug Detection using Machine Learning and Blockchain with IOT (4380/2019-CO/L)**
- Open Source Contributor
- Chatbot developer
- DBSchema Designer
- Full-stack Developer

WORKSHOPS & INTERNSHIPS

- Python-Beginner to an advanced course by AltSense
- Python Programming by LiveWire
- Internships at **VRSavvy** Pvt. Ltd at a role of back-end developer and **Chatbot developer**
- Participated in **StartupWeekend**, Chennai powered by '**Google for Startups**'

PERSONAL DETAILS

12, James Street, Gandhi Nagar, Nagalkeni, Chromepet, Chennai-44.

+91 84288 99503

OBJECTIVE

I am a person of interest who wants to learn many things and explore the AI beyond the scope . I'd like to automate things and its my passion

PROGRAMMING SKILLS

Advanced*(able to work withframeworks)*
